

# Perry Creek Bretons

## Picking Your Puppy

Picking your puppy is an exciting time!  
*Here are some Perry Creek guidelines for selection day:*

Puppy selection order is based on when your deposit was received. First deposit, first choice and so on.

First choice selection must be made by six weeks of age - remember there are others waiting on you!  
Following choices must be made in order by seven weeks of age.

Selection can be made online (we send lots of pictures and videos!) or in person.  
You are welcome to visit anytime, but we do not allow the puppies to be handled prior to their first set of vaccinations at six weeks of age.

Selection times must be made by appointment and will be arranged after earlier picks have been made.

You can take your puppy home at eight weeks of age. If you are unable to pick up at that time, we will care for your puppy at no charge up to ten weeks of age. After ten weeks there is a \$10.00 per day boarding fee plus any additional vaccination costs.

Important! Your deposit reserves a puppy by sex, not by color! If the litter doesn't produce a puppy of your sex selection, we will refund your deposit or roll it over into a future litter. No refunds will be made based on color preferences. Remember- no matter the color, your puppy will have all of the ingredients to be a great bird dog and companion.

Suggestions for pick up day - we recommend a crate for the trip home along with towels for accidents and a collar and leash for exercise breaks. We will provide a take home kit with several days worth of puppy food along with tips for getting your new puppy settled into your home.
